The Real Books are the best-selling jazz books of all time. Since the 1970s, musicians have trusted these volumes to get them through every gig, night after night. The problem is that the books were illegally produced and distributed, without any regard to copyright law, or royalties paid to the composers who created these musical masterpieces.

We are very proud to offer the first legitimate and legal editions of these books ever produced. You won’t even notice the difference, other than that all of the notorious errors have been fixed: the covers and typeface look the same, the song lists are nearly identical, and the prices for our editions are even more affordable than the originals! Every conscientious musician will appreciate that these books are now produced accurately and ethically, benefitting the songwriters that we owe for some of the greatest tunes of all time!
